

Certification of

# PERSONAL PROTECTIVE EQUIPMENT (PPE)

Hasnol Zakaria

Product Certification And Inspection

# Presentation Outline

- ☐ What is Personal Protective Equipment (PPE)?
- ☐ Seven (7) types of PPE which required approval
- ☐ Product Standards
- ☐ Product Certification – Definition
- ☐ Product Certification – Benefits
- ☐ Certification Process
- ☐ Product Certification Scheme – Type 5
- ☐ Batch Certification Scheme – Type 1b
- ☐ Procedure for Existing licensee
- ☐ SIRIM-DOSH label

# What is Personal Protective Equipment?

- ➡ commonly referred to as "PPE",
- ➡ Equipment used to minimize exposure to hazards that cause serious workplace injuries and illnesses. These injuries and illnesses may result from contact with chemical, radiological, physical, electrical, mechanical, or other workplace hazards.
- ➡ Personal protective equipment may include items such as gloves, safety glasses and shoes, earplugs or muffs, hard hats, respirators, or coveralls, vests and full body suits.

# Requirements under **Factories and Machinery Act 1967, Occupational Health and Safety Act 1994 and Regulations.**

7 types of PPE which required approval are:

(i) Respiratory protection

(ii) Hearing Protection

(iii) Eye Protection

(iv) Hand Protection

# Requirements under **Factories and Machinery Act 1967, Occupational Health and Safety Act 1994 and Regulations.**

7 types of PPE which required approval are:

(v) Foot Protection

(vi) Body Protection

(vii) Head Protection

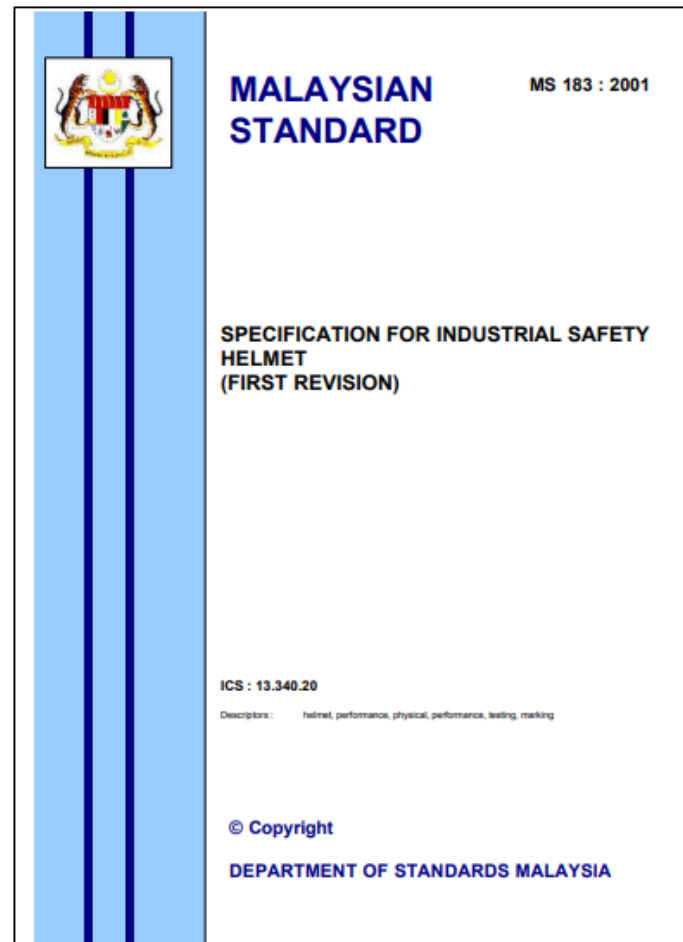

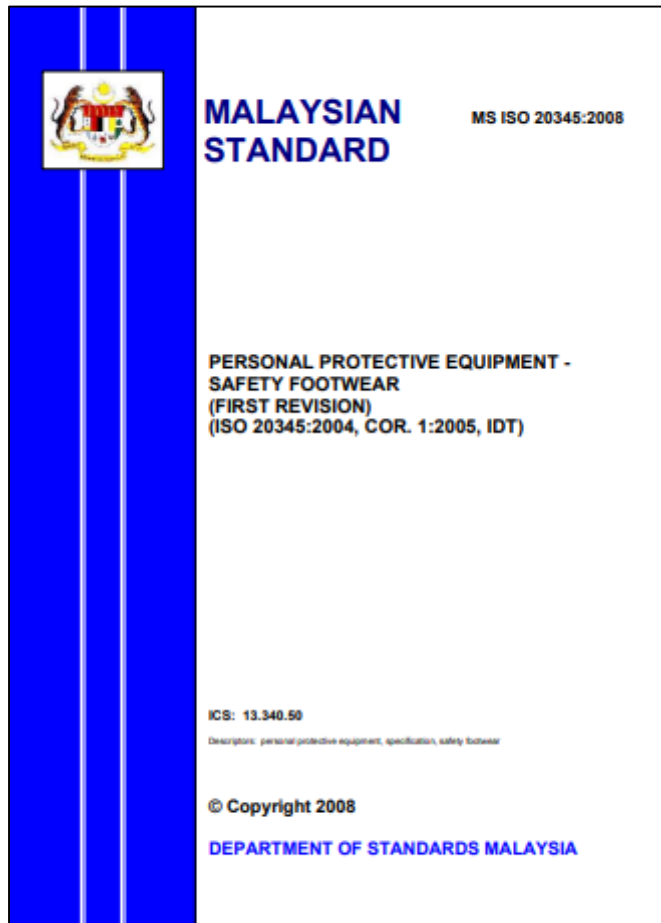

# Product Standards

- **Standards** (Specified requirements)  
A publicly available document **established by consensus** and approved by a recognized body.
- Standards can be purchased from Jabatan Standard Malaysia or any National Standard organization.

# Product Standards

## Example MS:

# Product Standards

## Example (BS EN):

<b>BRITISH STANDARD</b>	<b>BS EN</b> <b>14387:2004</b> <b>+A1:2008</b> <i>Incorporating corrigendum December 2004</i>
<b>Respiratory protective devices — Gas filter(s) and combined filter(s) — Requirements, testing, marking</b>	
ICS 13.340.30	
<b>BSi</b> British Standards	
NO COPYING WITHOUT BSI PERMISSION EXCEPT AS PERMITTED BY COPYRIGHT LAW	

<b>BRITISH STANDARD</b>	<b>BS EN</b> <b>361:2002</b>
<b>Personal protective equipment against falls from a height — Full body harnesses</b>	
The European Standard EN 361:2002 has the status of a British Standard	
ICS 13.340.99	
<b>BSi</b>	
NO COPYING WITHOUT BSI PERMISSION EXCEPT AS PERMITTED BY COPYRIGHT LAW	

# Product Certification

Definition – as according to ISO/IEC 170067

A procedure by which a third party gives written assurance that a product conforms to specified requirements

(with factory assessment & surveillance,

OR specific on particular batch)

# Product Certification

*Why do we need it..?*

- ➡ Provide *independent assurance* for products manufactured *to conform consistently with standards or specifications*.
- ➡ Give manufacturers right to affix the *SIRIM's "Top Mark"* on their products.
- ➡ Provide *basis and means* for the regulatory agencies in *making decision* on approval and surveillance of products under its purview, e.g. SIRIM-DOSH certification for PPE
- ➡ Assure customers of *products' quality, safety & reliability*.

# Certification Process

## 2 TYPES OF CERTIFICATION SCHEME

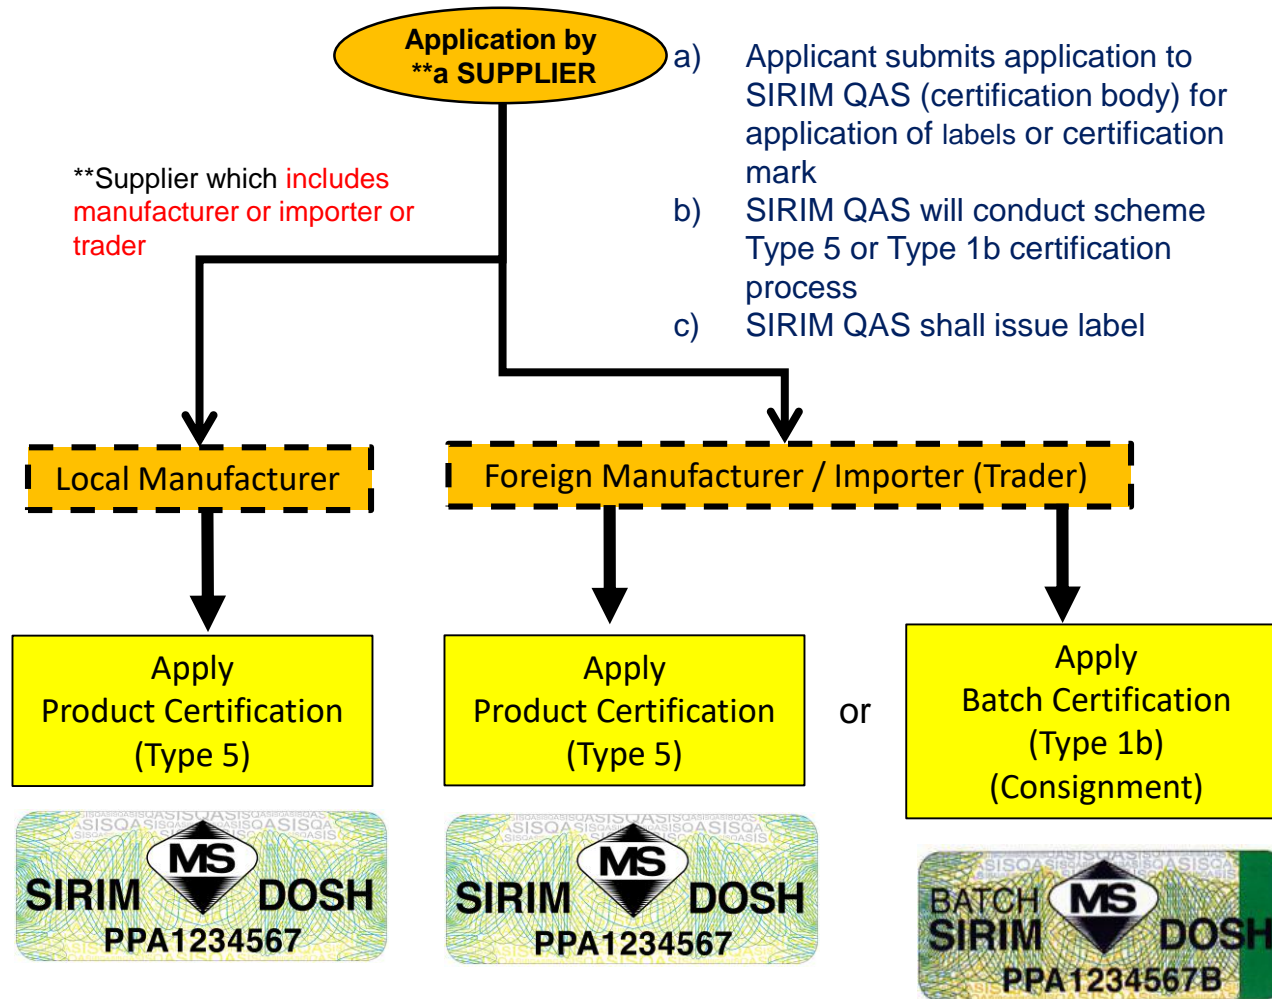

### TYPE 5

- PRODUCT CERTIFICATION SCHEME
- Long term certification scheme
- Yearly license renewal
- Factory audit will be conducted at factory

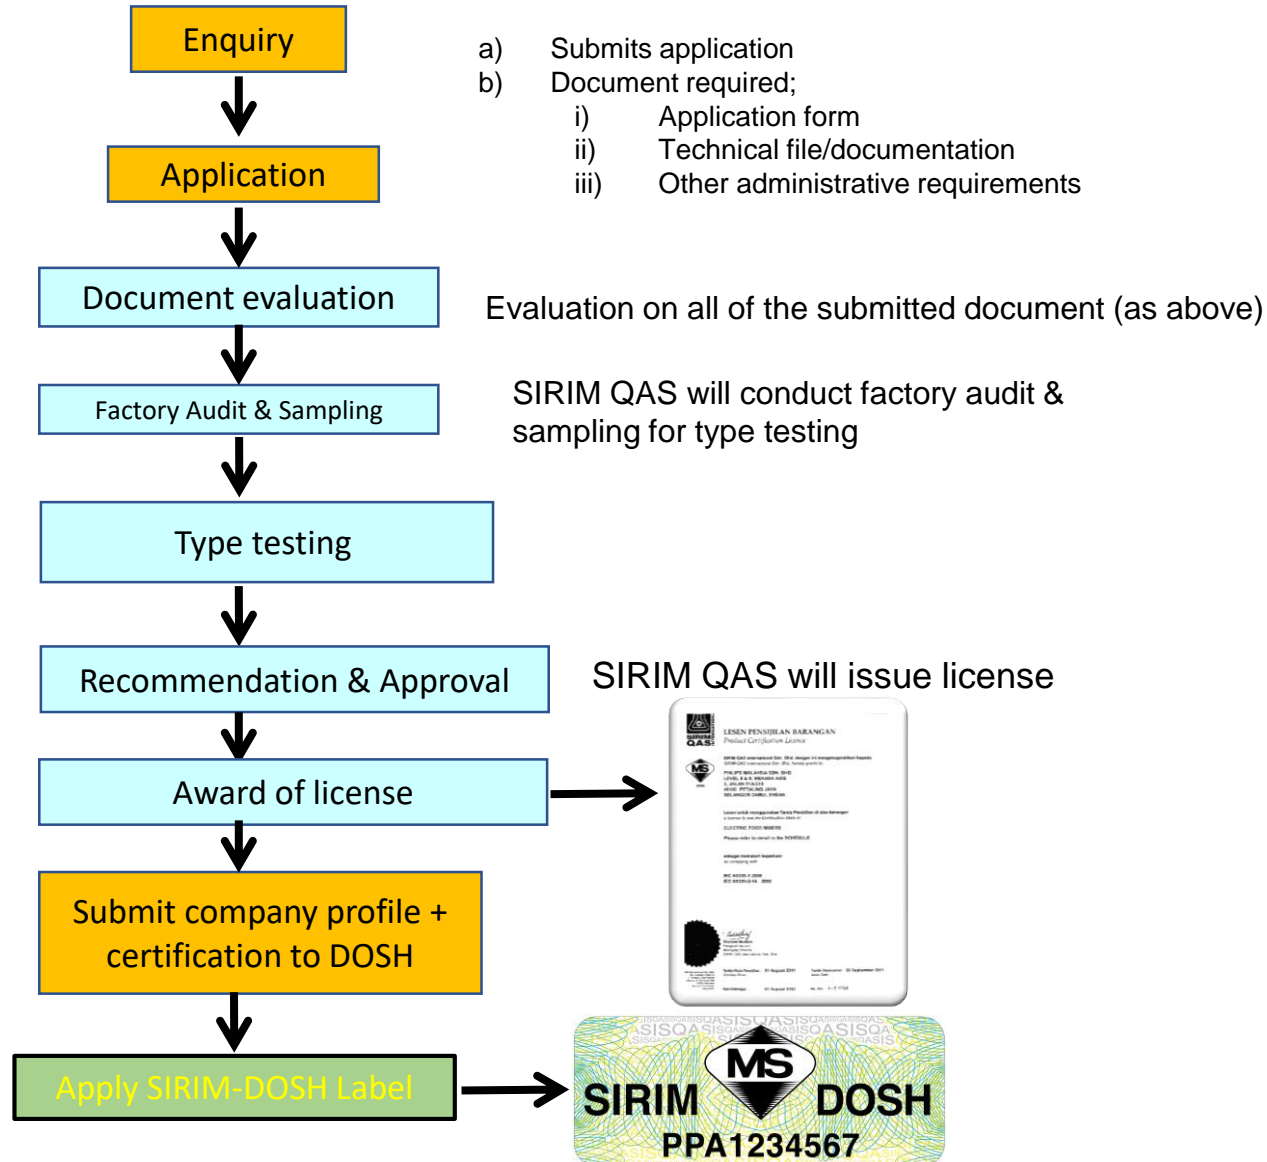

### TYPE 1B

- BATCH CERTIFICATION SCHEME
- Short term certification scheme, based on batch consignment
- Batch certificate is issued on a specific batch which has been tested
- Factory audit is not conducted

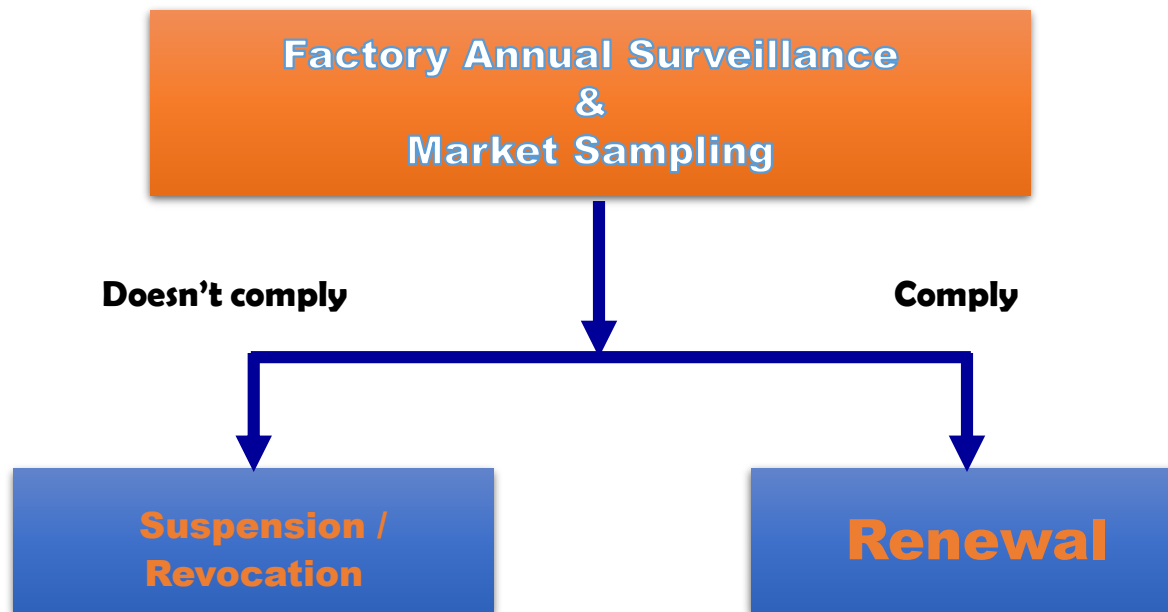

# APPLICATION FOR CERTIFICATION

## PROCESS FLOW : PRODUCT CERTIFICATION SCHEME (TYPE 5)

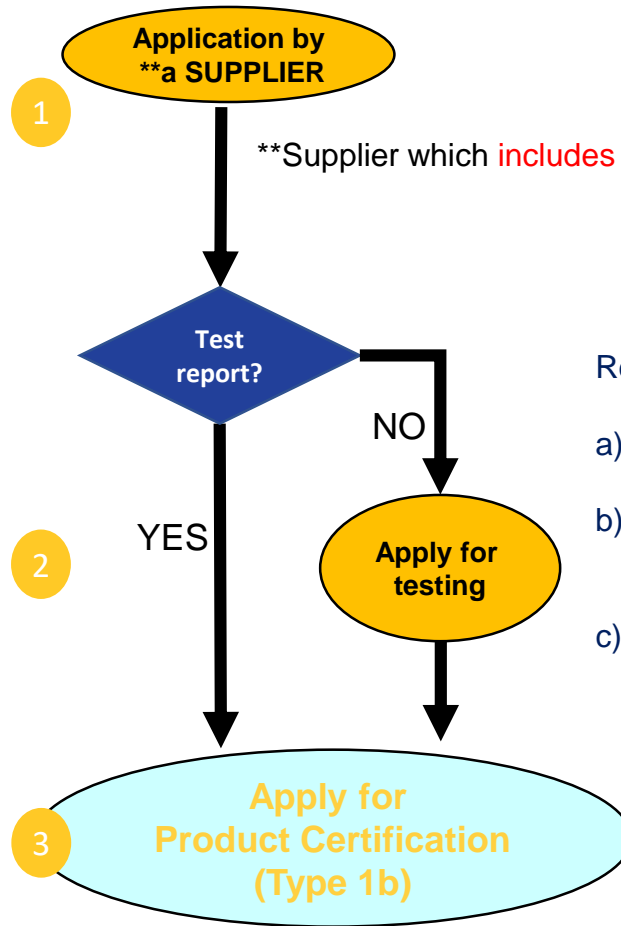

## PROCESS FLOW : PRODUCT CERTIFICATION SCHEME (TYPE 5) - Surveillance and Renewal process

## PROCESS FLOW : BATCH CERTIFICATION SCHEME (TYPE 1b)

# 'TYPE TEST' APPLICATION

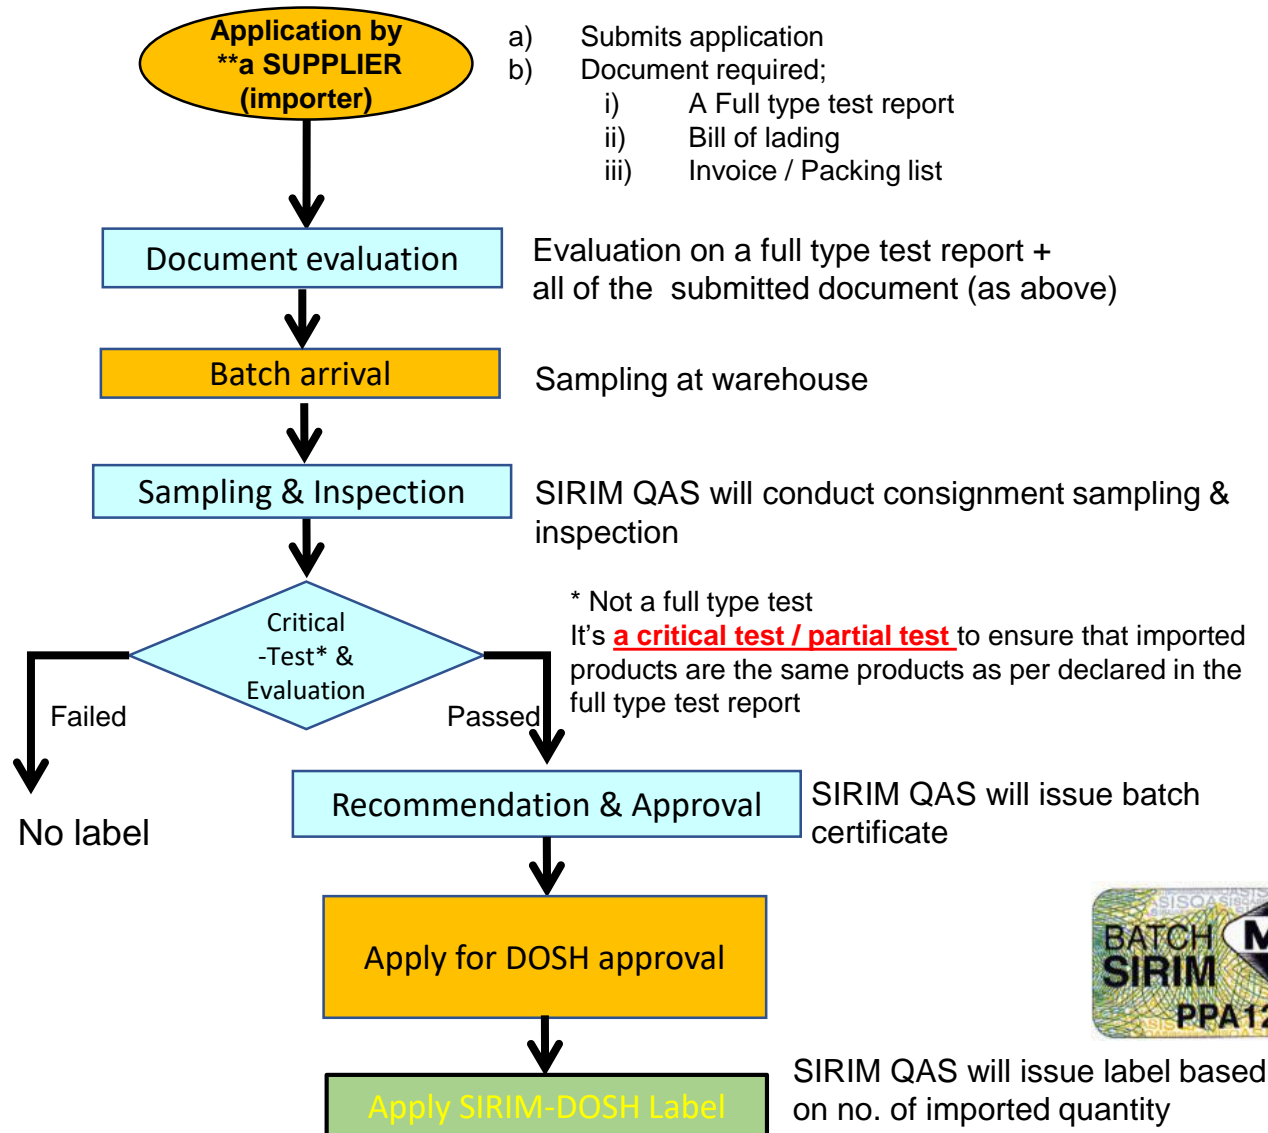

\*\*Supplier which includes importer, manufacturer and trader

Requirement of a FULL TYPE TEST report;

- a) Test at SIRIM QAS International, maybe witness by DOSH
- b) Test at factory lab or 3rd party lab supervised by SIRIM QAS International, maybe witness by DOSH
- c) Test at an accredited lab to ISO/IEC 17025 maybe supervise by SIRIM and witness by DOSH

Applicant submits application for Batch Consignment together with Type Test Report

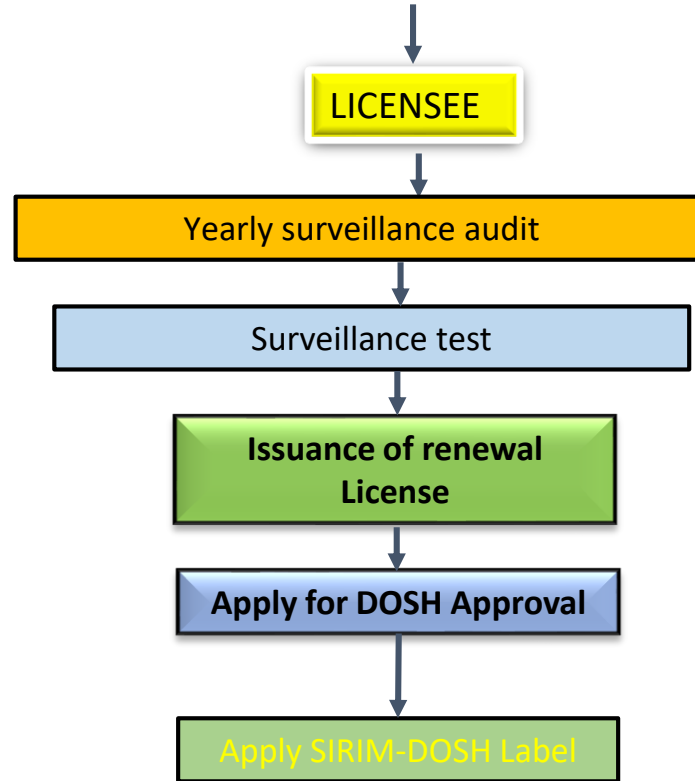

## PROCESS FLOW : BATCH CERTIFICATION SCHEME (TYPE 1b)

# Current Licensee for Type 5

Condition = Full type test validity within 5 years

a) SIRIM testing laboratory. The testing maybe witnessed by DOSH officer.

b) Factory laboratory or any 3rd party testing laboratory or Laboratory accredited to ISO/IEC 17025 and a signatory of ILAC/APLAC MRA. However, the type testing maybe supervised by SIRIM Tester and maybe witnessed by DOSH officer.

# SIRIM-DOSH Label

Where should it be placed?

TYPES OF PPE	SIRIM-DOSH label location	
	On the product	On the packaging
