

ISO 22000 - FOOD SAFETY MANAGEMENT SYSTEM

BRING SAFETY TO THE FOOD INDUSTRY

ISO 22000 is a Food Safety Management System, which can be applied independently to other management systems or integrated with existing food safety system such as, Hazard Analysis and Critical Control Point (HACCP) and Good Manufacturing Practice (GMP) Certification.

Apart from food, ISO 22000 also applies to feed producers, primary producers, food manufacturers, transport and storage operators, retail outlets etc. This standard can also be implemented to organizations such as producers of equipment, packaging materials.

Benefit of Seminar

- Customer assurance towards the quality of the food products through the demonstrated implementation and ongoing maintenance of the system.
- The food safety management system is well-planned, monitored, audited (internally and externally) and measured.
- ISO 22000 includes but goes beyond-existing HACCP program

Who Should Attend

- Top management of an organization
- Policy makers within business and organizations
- Management personnel who are responsible for implementing and maintaining the food safety system
