

Ref. No.: SQAS/ECIS/LBL/0002

Date: 18 Apr 2022

Licensees and clients under SIRIM Product Certification Scheme and Batch Consignment Scheme

Dear Sir / Madam,

IMPLEMENTATION OF NEW SIRIM-ST LABELS WITH QR CODE

The above matter is referred.

We would like to inform that SIRIM QAS International has started to issue new SIRIM-ST labels with QR code for regulated electrical and gas products under the Energy Commission (Suruhanjaya Tenaga or ST) of Malaysia since 10 Feb 2022.

SIRIM and ST have introduced this type of label in order to assist consumer in accessing information of the products through SIRIM Mobile Apps easily and conveniently. It is also one of the methods to confirm authenticity of certification status of the products.

With this implementation, licensees and clients are allowed to finish up stock of existing SIRIM-ST labels until receipt of new SIRIM-ST labels with QR Code.

SIRIM-ST labels without QR code which were affixed of the products remain valid.

Comparison of SIRIM-ST Labels for electrical products under SIRIM Product Certification Scheme is as below.

	
<p>CURRENT SIRIM-ST LABEL SIZE : 25mm x 10mm</p>	<p>NEW SIRIM-ST LABEL WITH QR CODE SIZE : 22mm x 15mm</p>

Should you require further information, please contact our secretariat at 03-5544 6498

Thank you.

Regards,

ARIZA BINTI MOHD YUSOF
